Who we are

Created in **2012**

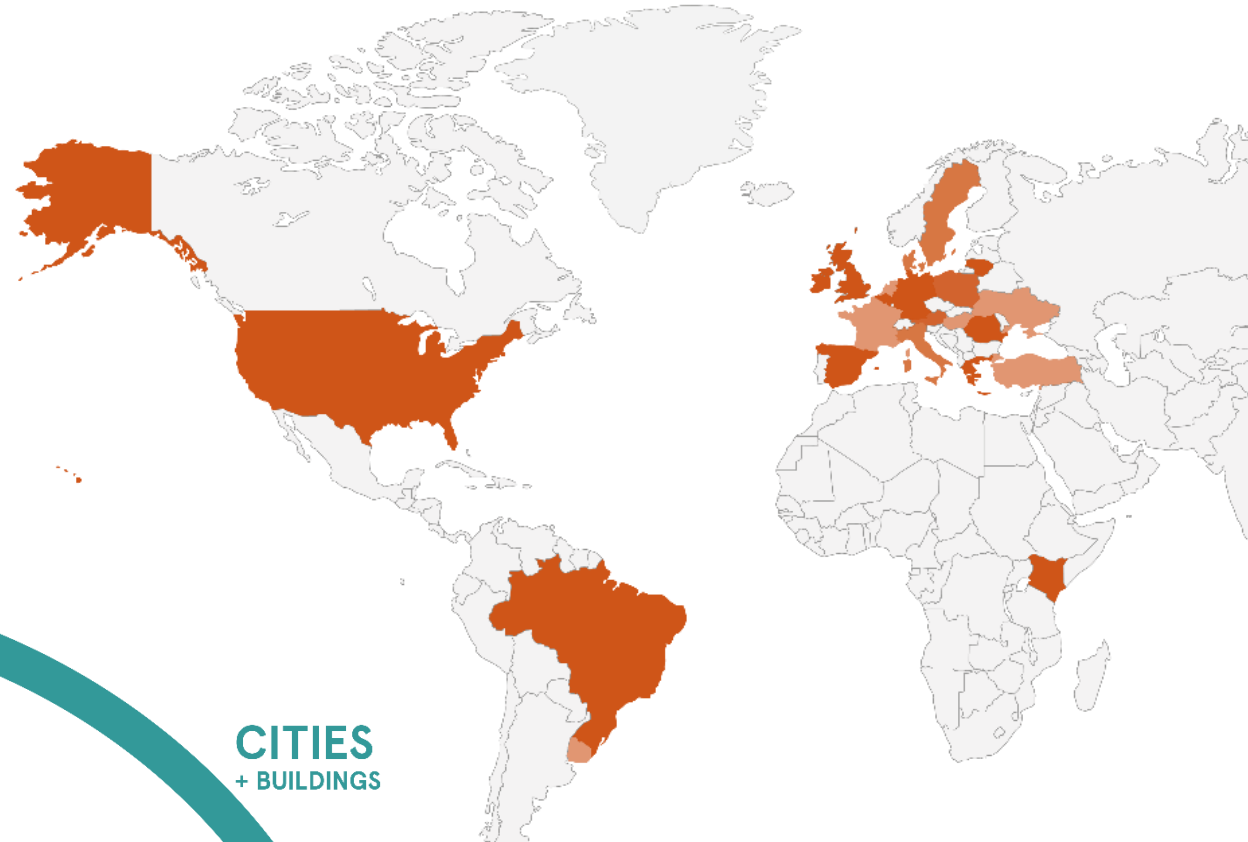

Three hubs
(Rome, London, Valencia)

72 municipalities
representing over 7 million citizens

58 partners
in 22 countries in 4 continents

VISION

UniverCities aims to be a global hub to encompass cross-cutting knowledge and professional skills, with diversity and social inclusion serving as the driving forces behind the change to solve environmental and climate challenges.

UniverCities

RTOs

we promote social inclusion
as a key drive to environmental
challenges

CITIES
+ BUILDINGS

What we do

We promote social inclusion as a key drive to environmental challenges

URBAN PLANNING & DESIGN

Support in planning urban space and design buildings which are gender-neutral and minority-friendly, to create healthy, safe, and inclusive living environments for everyone in a fair way

INCLUSIVE USERS ENGAGEMENTS & EXPERIENCES (UX)

Engage citizens, co-creating and co-designing innovative solutions to problems in cities and in the built environment

REPRESENTATIVE DATA

Gather and analyse inclusive urban data and find the gaps helping to identify the needs of cities

NETWORKING & CAPACITY BUILDING

Create networks to build capacities and share knowledge among our members

UNBIASED COMMUNICATION

Raise awareness and communicate our activities in an inclusive, neutral way
